Software, IT, and Accounting Solution Provider

IBIX GLOBAL TECH.

Where Optimization Begins

www.ibixglobal.tech

Ibix Global Tech delivers innovative Technology, Infrastructure, and Accounting/Finance solutions to businesses of all sizes, from start-ups to large businesses that help them improve efficiency and adapt to the future. When a company partners with Ibix Global Tech, it has access to modern software programs that are designed to its specific needs and intended to help the company reach its objectives. Our services are flexible, futuristic, and aligned with new possibilities, industries, and market trends.

What we do
& How we do it

We get our inspiration from the world moving towards a fast-paced environment and the solution-oriented approach that it brings along. We want to help other companies and support them in growing with us.

Our Presence

Global Presence: Ibix Global Tech operates globally with offices in Saudi Arabia, UAE, USA, Egypt, and Pakistan.

Client Impressions: Clients across various industries have been impressed with our creativity and solution-oriented approach

Diverse Industry Reach: Serving multiple industries, including FMCGs (Food and Manufacturing), Retail, Construction, and Healthcare.

Proven Track Record: Successfully serving clients in different domains, showcasing our team's ability to provide high-quality solutions.

Timely and Efficient Delivery: Known for delivering solutions promptly and efficiently, meeting the diverse needs of our clients.

What makes us great?

Teamwork and Communication: The implementation of our ideas thrives on effective teamwork and seamless communication.

Speed and Understanding: Our greatness stems from our agility and deep understanding of our clients' requirements.

Expert Team: Ibix Global Tech is powered by the best team of experts globally.

Versatility Across Services: Our expertise spans from website development to cloud security to digital marketing, tailored precisely to meet the unique needs of our clients.

We're here to help you grow!

Our Values & Qualities

We are constantly willing to adapt to new situations, hence we make an effort to create ideas that are adaptive and will be applicable in the coming years. Our Values and Qualities are aligned with the changing dynamics of the world.

Integrity

Integrity is a fundamental value that underpins everything we do. We hold ourselves to the highest ethical standards & prioritize honesty, fairness, and transparency.

Excellence

Pursuing excellence is a core principle at our company. We strive for excellence in all aspects of our work & seek to exceed all expectations.

Collaboration

Collaboration is central to our success. We value and actively foster a culture of collaboration, and recognize the collective strength of our team.

Innovation

Innovation is at the heart of everything we do. We encourage a culture that values curiosity, creativity, and continuous improvement.

FEW OF THE INDUSTRIES SERVED 2023-2024

Ibix Global Tech, with a global presence in Saudi Arabia, the UAE, Egypt, and Pakistan, is dedicated to exceeding client expectations by going the extra mile, fostering enduring relationships.

IT Hardware & Networking Solutions

Our company specializes in providing comprehensive IT hardware and networking solutions that meet the demands of modern businesses. From advanced networking hardware to integrated security and communication systems, we deliver solutions designed to ensure seamless connectivity, enhanced security, and operational efficiency.

Product Categories

We offer a full range of IT hardware, covering all essential components for a reliable, high-performing network:

Network Devices
Switches, Routers, Access Points

Designed to ensure optimal connectivity, our networking devices offer the backbone for efficient and secure data transfer across the organization.

Security Solutions
Firewalls, Access Control Systems

Our firewall and access control solutions provide advanced security to safeguard your network and protect sensitive information.

Communication Equipment
IP Phones, Video Conferencing Hardware

From voice to video, we offer cutting-edge communication hardware that supports seamless internal and external collaboration.

Additional Hardware
Surveillance Equipment, Servers, Storage Solutions

We supply all types of essential IT equipment for a fully integrated and secure infrastructure, including high-quality surveillance systems, servers, and data storage solutions.

Services Overview

Alongside our extensive hardware offerings, we provide end-to-end services for installation, setup, and ongoing support:

Cabling & Passive work

We handle structured cabling and related passive work to create a robust foundation for your network infrastructure, ensuring reliable data and power connectivity.

Networking & Routing Solutions

From initial design to final setup, our networking and routing services ensure that your network operates smoothly and efficiently, tailored to your unique business needs.

Installation & Configuration

Our team manages the complete installation and configuration of your hardware, so you get the best performance and reliability out of your systems.

Support & Maintenance

We provide ongoing support to maintain your infrastructure, offering troubleshooting, upgrades, and repairs to ensure uninterrupted performance.

Why Choose Us?

With a commitment to quality and customer satisfaction, we provide:

Industry Expertise

Years of experience in IT hardware and networking, ensuring solutions are both effective and future-proof.

End-to-End Solutions

We cover everything from product sourcing to installation and ongoing support.

Client-Centric Approach

Our focus is on building long-term partnerships, adapting our solutions to meet changing client needs and industry developments.

Designing
& Printing

50+ WAREHOUSE ROOMS COVERED

Everything in one place:
Credit System, Discounts and **Promotions,** and more!
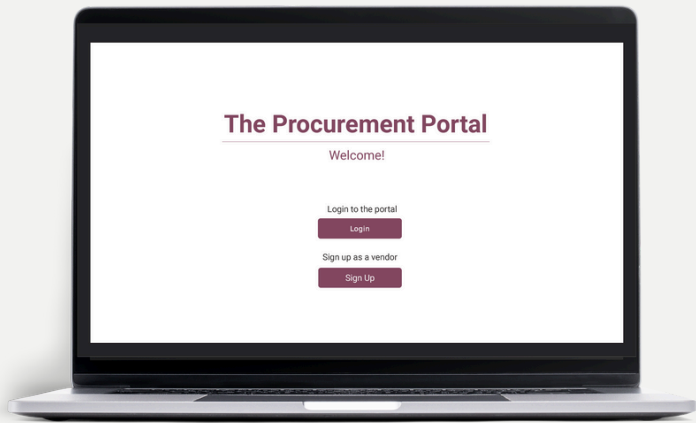

Our Recent Projects

IN SOFTWARE DEVELOPMENT – SOLUTIONS WE BUILD FOR OUR CLIENTS BASED ON THEIR NEEDS.

With a team of experienced developers, we provide end-to-end solutions, from requirements gathering and system design to coding, testing, and deployment. We leverage the latest technologies and agile methodologies to deliver high-quality, scalable, and customizable software applications that drive business growth and enhance operational efficiency.

TICKETING & APPROVAL SYSTEM

The system streamlines ticket processing, enabling approval or rejection based on predefined criteria with comments. It ensures accountability, provides tracking and reporting, and aims to enhance team communication in managing vendor tickets.
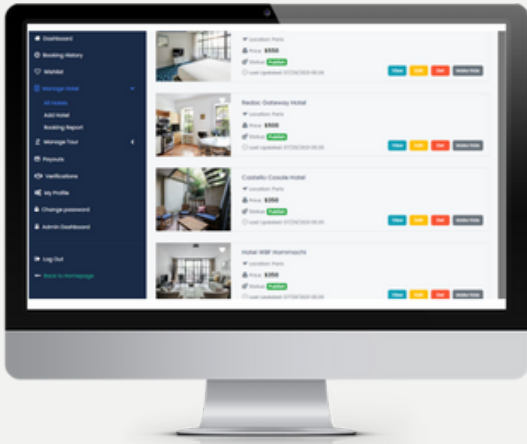

THE PROCUREMENT PORTAL

The portal integrates with SAP for streamlined purchase order management and includes a vendor module for efficient profile maintenance, communication tracking, and contract management. Enhancing procurement efficiency, it provides notifications and allows direct invoice uploads for seamless vendor interactions.
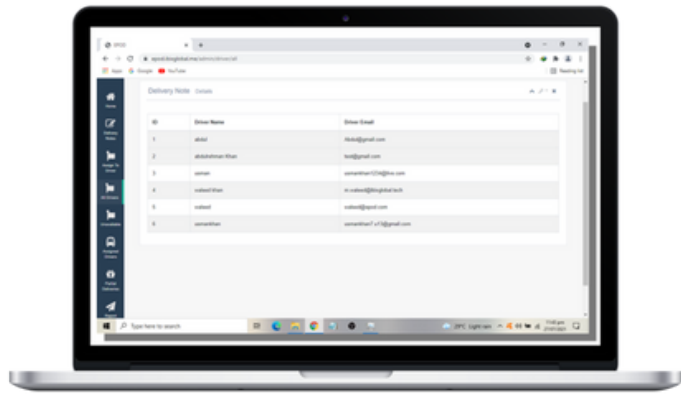

B2B & B2C E-COMMERCE WEBSITE

The website provides a user-friendly interface with secure online transactions and specific B2B features like bulk ordering and customized pricing. With inventory management and customer support features, the project aims to create a robust e-commerce platform for seamless transactions and enhanced customer experiences.
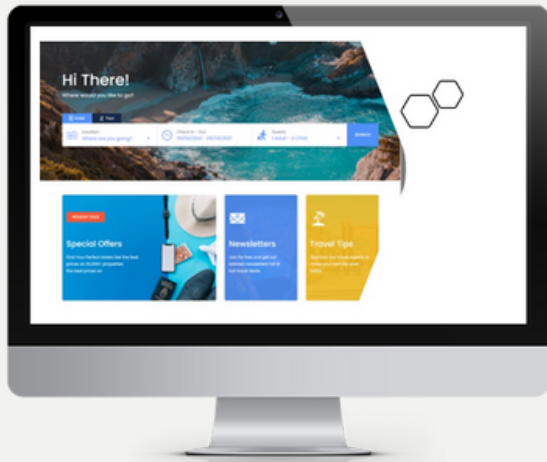

HOTEL MANAGEMENT SYSTEM

The system streamlines hotel operations, managing reservations, check-ins, check-outs, and billing. Integrated features like online booking enhance guest experiences, optimizing operational efficiency for hotel staff

ELECTRONIC PROOF OF DELIVERY

The ePOD system enables real-time tracking, capturing delivery details, and providing a mobile app for drivers. With a customer web portal for tracking and feedback, the project enhances delivery transparency, efficiency, and accuracy, improving overall customer satisfaction.

A TRAVEL WEBSITE

The website provided a seamless user interface for planning and booking trips, offering features like flight and hotel comparisons, itinerary creation, and travel guides.
